FRONT COVER

Man O' War Cove

The unique geology of the Dorset coastline lends itself to the formation of numerous small picturesque coves, caused when the sea breaks through the hard layer of Portland stone and starts eroding the softer layers beyond. Man O' War Cove, lying within St Oswald's Bay, gets its name from the central reef formation, supposedly reminiscent of a naval warship, and is one of the many examples of this process.

Current and archived results, Gas & Air, averages etc., are also published in PDF format on www.dsrpa.co.uk
